It's good soundtrack from good game. As for me, the option to buy soundtrack is rather a form of thanks to developers for a good free game.... Decent game, but not exactly there yet, I am still looking for the perfect pirate-strategy game.. You should regain this when you die this shouldn't be for the player it should be for the character. Early review, but I should qualify it by saying this game feels a lot like a continuation of the Myth series (gameplaywise). The combat is all about small party skirmishes with some basic units like archers, warriors, etc. If you played Myth in the past, this game will feel like reuniting with an old friend.

This is definitely in early access, currently there is only one campaign level, a horde mode, and multiplayer. What's exciting is that the core gameplay is very good. It feels tactical and unpredictable at the same time.

#### The Good-

Core gameplay is fun and polished.

4 player coop in Campaign.

Skills provide good sustainability for your units.

Features coming out are well defined, I don't feel like I'm in EA limbo.

Explosions making a big mess.

#### The Bad-

Some AI and pathing issues.

Currently only one mission out for campaign.. Wonderful videogame!! If you are fan of Lemmings and Cut the Rope, this game is PERFECT!!

Well, no more to say. Just play it!

Really fun game! its simple in mechanics but it happens to be quite a challenge!

Recommended!. the grind, one hell of a good game ruined by corporate cash cows.. You can flex, or look like a ninja or somethin' like that.

Best pose pack ever.. TREYARCH U GOTTA MAKE MORE MAC SURPORTED GAMES BECUASE I WANNA PLAY ZOMBIES WITH STEAM WORKSHOP!!! And can you make the new cod game, bo4 surported for mac?. Bought this because of the promise of an update for RPG Maker MV. Still no word of the update. Can not recommend until this is provided as promised.
